THE rich fellows, who have plenty of money and who owe nobody a cent, are the only persons who can look complacently on the free silver coinage craze. Depend upon it, the rich man can always take care of himself. It is the poor devil who is in debt that is in a bad fix, and who had better be a little careful. The money that he owes represents 100 cents for each dollar. If the free silver lunatics carry their point it will represent only about 50 cents on the dollar. And here is where the man he owes will make immediate demand for payment, and will require that pay ment to be made in the same kind of money that prevailed when the debt was created. This will close up about half the business houses and factories in the country, and will ruin tens of thousands of farmers and workingmen. Be careful!

THE Editor of the Democratic Frankfort Capital is not afraid to speak right out in meetin'-to declare sound Democratic doctrine in spite of the foolish fad that now possesses so many of his party. Hear him:

A Demoat who conscientiously believes that throughthemasito he doctrine of free, unlimited and adependent coinage of silver at the atio of 16 to 1 is wrong and would be detrimental to the general welfare, may vote for the nominees of the Chicago Convention on such a platform, because his party has so declared and so nomid, but his former convictions on the subject of sound money will remain with him. Otherwise, he has not the parage of his convictions and cannot be regarded as other than a mere partisan, whose opinions are regulated by the majority of a Convention. He may vote for the candidate nominated, in order to maintain party organization, but he is a weak brother, who has no opinions upon economic measures that are not subject to change upon order of a majority of those with whom he asso-
